

InnoInstall Award

Most innovative commercial battery storage installation

Specifications:

Nominal capacity of storage [kW]	<input type="text"/>
Gross capacity [kWh]	<input type="text"/>
C-rate [C]	<input type="text"/>
Date commissioned [DD/MM/YYYY]	<input type="text"/>

Description of innovation:

1. Describe the initial situation. What was the issue?

2. What components are involved in the project?

3. Describe the pioneering achievement. How was the challenge successfully solved?

4. Why did the customer (mainly) want the storage?

4.1 Financing model: How does the storage refinance itself?

4.2 Energy footprint: Has the share of green energy been increased?

4.3 External impact: How important was the advertising effect/innovation to the customer?

5. Could the project become a model for successful storage projects?

Thank you – We've got our fingers crossed for you!
